Professional Summary

Highly skilled Backend Developer with over 5 years of experience in designing, developing, and maintaining robust and scalable web applications. Proficient in Python and PHP, with extensive experience in optimizing SQL queries, integrating payment systems, and enhancing user interfaces. Proven ability to manage multiple projects, collaborate effectively with cross-functional teams, and deliver high-quality solutions in fast-paced environments.

Technical Skills

- **Languages:** Python, PHP, SQL, JavaScript
 - **Frameworks:** Django, Flask, Laravel, Symfony
 - **Databases:** MySQL, PostgreSQL, MongoDB
 - **Tools & Platforms:** Git, Docker, AWS, Heroku
 - **Payment Integration:** PayPal, Stripe, Clover
 - **Other Technologies:** HTML, CSS, RESTful APIs, JSON, XML
-

Professional Experience

Backend Developer

Frontline Tech Solution

Ikeja, Lagos

January 2022 - May 2024

- Spearheaded the optimization of SQL queries, resulting in a 40% increase in database performance for large datasets.
- Integrated new payment methods including Clover, and improved PayPal IPN performance, enhancing the payment processing system.
- Led the initiative to enhance the user interface, resulting in a 30% increase in user satisfaction.
- Upgraded the system to PHP8, ensuring compatibility and improving overall application performance.

- Collaborated with front-end developers, UX/UI designers, and product managers to deliver seamless user experiences.

Backend Developer

Mckodev Tech Lab

Ado Ekiti, Ekiti State

Frontline Tech Solution

Ikeja, Lagos

June 2020 – December 2021

- Developed and maintained web applications using Python and PHP, ensuring robust and scalable solutions.
- Designed and implemented RESTful APIs, facilitating smooth integration with third-party services.
- Managed database design and optimization, resulting in improved data retrieval times and system efficiency.
- Automated deployment processes using Docker and AWS, reducing deployment times by 50%.
- Worked closely with clients to gather requirements and deliver customized solutions that met their business needs.

Junior Backend Developer

First Order Innovations

Ado Ekiti, Ekiti State

July 2019 – May 2020

- Assisted in the development of web applications using PHP and MySQL.
- Performed code reviews and debugging, ensuring high-quality code and minimizing bugs.
- Implemented user authentication and authorization mechanisms, enhancing application security.
- Developed and maintained technical documentation, ensuring clear and comprehensive guidelines for future development.

Education

Bachelor of Science in Geology

Ekiti State University

Ado Ekiti, Ekiti State

Graduated: May 2019

Certifications

- **Certified Python Developer** – Simpling Learning
 - **Certified PHP Engineer** – Coursera
-

Projects

- **Simple Invoices Optimization Project:** Led a three-phase project to optimize SQL queries, integrate new payment methods, and enhance the user interface for Simple Invoices, resulting in significant performance improvements and better user experience.
- **E-commerce Platform Development:** Developed a comprehensive e-commerce platform using Django and PostgreSQL, integrating various payment gateways and implementing advanced search functionalities.
